Commissioner For Patents P.O. Box 1450 Alexandria, VA 22313-1450

COMMENTS RE: PETITION TO REVIVE

With regard to Mr. Verdier's comments regarding the absence of the October 30, 2003 amendment from the September 2, 2005 reply, a copy is enclosed herewith and it is noted that the signature by Mr. Russel Marvin is accompanied by the notation "CTO, an abbreviated form of Chief Technical Officer". Clearly Mr. Marvin did not sign as an inventor in the absence of the other two inventors as apparently assumed by the examiner. Instead he executed the document properly as an officer of the Torrington Research Company. At that point in time the undersigned was not involved and application and the underlying invention were owned by the Torrington Research Company and the inventors held no interest whatsoever, see assignment enclosed dated February 19, 2002.

In view of the foregoing it is submitted that ratification was and is unnecessary but if the examiner feels strongly in this regard, he may of course, take the signature of all three inventors on the January 23, 2004 amendment as ratification. The intent here was clarification. It is to be noted that Mr. Marvin signed twice, in the first instance as Chief Technical Officer and in the second instance as an inventor.

In view of the foregoing, it is respectfully requested that this petition be considered in the alternative. First, it is to be noted that the full fee for revival as an unintentionally abandoned application has been submitted. Secondly, the confusion in the interpretation of Mr. Marvin's signature may well have resulted in the holding of

abandonment rather than any action or inaction on the part of the applicant. Thus, consideration of the petition as unavoidable with the accompanying lower fee requirement is requested. In the event of a denial on the grounds, further consideration as unintentional with the full fee is requested.

Respectfully submitted,

Theodore R. Paulding
